RECOMMENDATIONS & ACTION PLAN

01

Your worst-performing trades (avg score: 33.2) happen between 22:00–07:00 UTC when crypto spreads are 2–4× wider.

Shifting these to 08:00–16:00 UTC could improve your worst-hour avg score by ~30.0 points.

02

Your best-performing symbol is BTCUSDT (avg score: 74.8).

Your execution quality is most consistent there.
